EXECUTIVE SUMMARY

Senior Full-Stack Engineer with 9+ years of experience designing and delivering scalable enterprise web applications using ReactJS, NodeJS, TypeScript and modern JavaScript and AI driven development. Proven track record leading frontend initiatives, architecting reusable component libraries, improving application performance, mentoring engineers, and partnering with cross-functional teams to deliver business-critical products. Experienced across finance, insurance and collaboration platforms with expertise in frontend architecture, design systems, performance optimization, authentication, and API integration.

CORE TECHNICAL EXPERTISE

- Technology : ReactJS, NodeJS, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Responsive Design
- State Management: Redux, Redux Toolkit, Context API
- React Ecosystem: React Router, React Compiler, React 19 (learning), React Query/TanStack Query (familiar), Storybook (familiar)
- Testing: Jest, React Testing Library
- Performance: Lazy Loading, Code Splitting, Memoization, Lighthouse, Cross-browser Optimisation
- Build & DevOps: Vite, Webpack, Git, GitHub, CI/CD, Postman, VS Code
- Architecture: Design Systems, Component Libraries, REST APIs, MSAL, Agile, Scrum

PROFESSIONAL EXPERIENCE

Associate Consultant | GlobalLogic | May 2022 – Jun 2026

- Architected scalable ReactJS and NodeJS solutions for enterprise Meeting Management and Financial Planning platforms, improving maintainability through modular frontend architecture.
- Led delivery of 8+ business-critical modules including Authentication, Session Management, Meeting Scheduling, Agenda Management and Microsoft Teams integration.
- Built 40+ reusable React components and shared utilities, reducing duplicate development effort by 35% while improving engineering productivity and UI consistency.

- Solved complex rendering challenges using lazy loading, memoization and rendering optimization techniques to improve responsiveness of data-intensive interfaces.
- Designed Excel-like financial grids supporting copy/paste workflows and PDF export for enterprise finance users.
- Reviewed 200+ pull requests, mentored engineers, established frontend best practices and collaborated with architects to simplify feature expansion and API integration.

Senior Engineer | Brillio | Dec 2020 – May 2022

- Engineered an enterprise design system using ReactJS, NodeJS and Atomic Design principles.
- Delivered 30+ reusable UI components, reducing duplicate implementation by 40% and accelerating feature delivery by 30%.
- Reviewed 100+ pull requests and coached developers on ReactJS and NodeJS best practices.
- Partnered with UX, Product, QA and Backend teams to deliver 20+ production releases with zero critical frontend issues.

Associate Developer | Candela Labs | Sep 2016 – Dec 2020

- Modernized legacy insurance and financial platforms into scalable ReactJS, NodeJS applications, improving maintainability and developer productivity.
- Developed business-critical case management and Life e-POS solutions supporting enterprise operations.
- Resolved 100+ production issues and contributed to 20+ successful production deployments.

LEADERSHIP HIGHLIGHTS

- Reviewed 300+ pull requests across multiple organizations.
- Mentored junior frontend engineers and promoted engineering best practices.
- Collaborated with architects, UX designers, QA and product stakeholders.
- Drove reusable architecture and coding standards for long-term scalability.

CERTIFICATIONS

- Namaste JavaScript – Akshay Saini
- Namaste React – Akshay Saini
- Namaste Node – Akshay Saini

EDUCATION

Bachelor of Engineering (Computer Science)
KLE Engineering College, Belagavi | 2011–2015
